

About NEPRO Innovation

NEPRO Innovation is a future-focused, multidisciplinary procurement solution designed by the public sector, for the public sector.

Delivered by Constellia, it provides a single, flexible, and fully compliant route to market for goods, services, works, technology and research & development.

Built to support complex and innovative projects, NEPRO Innovation enables public sector organisations to deliver outcomes with confidence, assurance, and control.

NEPO

“Designed by the public sector, for the public sector, NEPRO Innovation is a trusted solution powered by NEPO’s 50 years of credible public procurement expertise. NEPRO Innovation is ideal for organisations seeking to explore new ways of delivering outcomes, while maintaining the assurance, compliance, and governance expected in public sector procurement.”

Key Benefits

- ✓ Compliance
- ✓ Outcome-driven
- ✓ Multidisciplinary Support
- ✓ Public Sector Opportunities
- ✓ Simplified Onboarding
- ✓ Streamlined Procurement Process
- ✓ Quick Access
- ✓ Easy-to-use Technology Platform
- ✓ SME Friendly

By using the NEPRO Innovation Framework, you (the provider) can engage with public sector buyers whilst being supported by Constellia’s dedicated supplier team. The flexible process supports early market engagement, allowing your innovative solutions to be considered from the beginning.

How it Works

Constellia acts as the conduit and thin prime contractor between NEPRO Innovation customers and pre-vetted suppliers. The solution is a fast, compliant route for procuring goods, works, services, technology, and R&D.

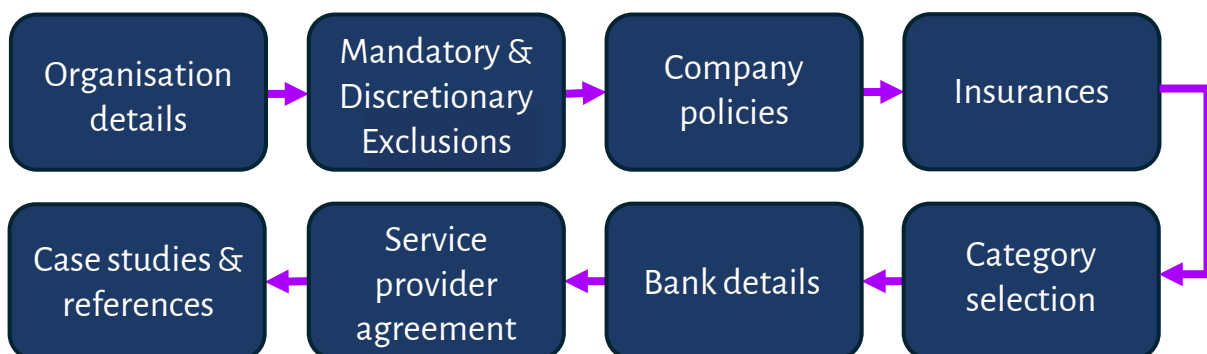

There is no charge to become a Constellia supplier or to bid for opportunities. A management fee applies only to successful projects you win and deliver. Buyers can access your expertise through a mini-competition or a direct award, which Constellia manages based on the customer's required service level.

As the awarded supplier, your organisation delivers the project. Progress and payments are managed via Constellia's procurement platform using our Milestone Reporting and automated invoicing process, which ensures you get paid for the outcomes you deliver.

How to Access

To access NEPRO Innovation, you must first become an accredited Constellia provider. You will need to create a profile via <https://www.constellia.net> and complete the application.

Our accreditation guide (request [here](#)), outlines the process and the information you will need to provide.

Categories

NEPRO Innovation covers categories of spend across goods, works, services, technology, and R&D. To be eligible for these opportunities, simply select the category during accreditation, and provide two case studies and a reference.

What Does it Cost?

Management fees for projects delivered via NEPRO Innovation are supplier-absorbed and vary depending on the level of service required from Constellia.

We will inform you of the service level before you bid, as it is agreed by the customer, and provide comprehensive guidance during the procurement process.

Fees

Contract Value (£)	Service Level (1) - Silver		Service Level (2) - Gold		Service Level (3) - Platinum	
	Direct Award	Mini competition	Direct Award	Mini competition	Direct Award	Mini competition
£1 - £214,903	1.90%	3.40%	2.20%	3.90%	2.50%	4.40%
£214,904 - £1,000,000	1.90%	2.90%	2.20%	3.40%	2.50%	3.80%
£1,000,001 - £4,999,999	1.50%	2.40%	1.75%	2.90%	2.00%	3.40%
£5,000,000 - £24,999,999	1.50%	1.90%	1.75%	2.40%	2.00%	2.90%
£25,000,000 >	1.00%	1.50%	1.25%	1.75%	1.50%	2.00%

About Constellia

Constellia is a leading procurement solutions provider, managing over £400 million of spend across more than 250 public sector organisations.

Through its managed marketplace of suppliers, including micro-SMEs, SMEs and large organisations, Constellia's neutral vendor model creates fair and equal access for suppliers of all sizes. It enables clients to procure goods, works, services and technology across more than 400 subcategories of spend, all through one simple and compliant route to market.

Constellia connects buyers with the right suppliers, enabling them to work together with transparency and efficiency while driving value for money, innovation and measurable social impact.

Why Choose Constellia

- **Compliance:** Opportunities can be accessed via NEPRO Innovation, a fully compliant solution which was procured and awarded under the Procurement Act 2023.
- **Speed:** Constellia can rapidly and compliantly run a direct award in just five working days or a mini competition in ten working days as a minimum.
- **On-Demand Expertise:** Dedicated team of experienced procurement professionals. Whether you need help with pre-market engagement, writing specifications, category expertise, or contract management, our procurement specialists assist every step of the way.
- **Outcomes-based payments:** Our Milestone reporting process is managed via our purpose-built and easy-to-use SoW Source-to-Pay procurement platform.
- **Access:** Join our dynamic marketplace of 4000+ providers to access exclusive opportunities across our growing community of 250+ public sector customers.
- **Social Value:** We work with public sector contracting authorities and providers to create realistic and realisable Social Value impact.
